

FLINT, MICHIGAN, WATER CRISIS

(Mr. KILDEE asked and was given permission to address the House for 1 minute.)

Mr. KILDEE. Mr. Speaker, the families and the children exposed to high levels of lead in my hometown of Flint deserve action by the people who did this to them.

The State of Michigan—Governor Snyder's administration—created this public health emergency through their own inaction and by decisions that their appointed emergency manager made in the city of Flint, which has led to this crisis. They need to act in a manner equal to the gravity of this terrible situation.

The Federal Government can help as well. The President has already declared a state of emergency, but Congress can act, too. I have legislation that I introduced last week that is a comprehensive set of solutions that not only deals with the need to replace those lead service lines that are leaching lead into the water system in households, but also provides the kind of support for children and families to get through this crisis and give them, as individuals, and my community, as a community, a chance on a future.

Resources are needed, not just a get well card, not just an apology, but we need financial resources. The State needs to step up. I am asking this Congress to do so as well.

COMMUNICATION FROM THE CLERK OF THE HOUSE

The SPEAKER pro tempore laid before the House the following communication from the Clerk of the House of Representatives:

OFFICE OF THE CLERK,
HOUSE OF REPRESENTATIVES,
Washington, DC, February 8, 2016.

Hon. PAUL D. RYAN,
The Speaker, House of Representatives,
Washington, DC.

DEAR MR. SPEAKER: Pursuant to the permission granted in Clause 2(h) of Rule II of the Rules of the U.S. House of Representatives, the Clerk received the following message from the Secretary of the Senate on February 8, 2016 at 3:26 p.m.:

That the Senate communicates S. Res. 364 (relative to the death of Marlow Cook).

With best wishes, I am

Sincerely,

KAREN L. HAAS.

COMMUNICATION FROM THE CLERK OF THE HOUSE

The SPEAKER pro tempore laid before the House the following communication from the Clerk of the House of Representatives:

OFFICE OF THE CLERK,
HOUSE OF REPRESENTATIVES,
Washington, DC, February 9, 2016.

The Hon. PAUL D. RYAN,
The Speaker, House of Representatives,
Washington, DC.

DEAR MR. SPEAKER: Pursuant to the permission granted in Clause 2(h) of Rule II of the Rules of the U.S. House of Representatives, the Clerk received the following mes-

sage from the Secretary of the Senate on February 9, 2016 at 10:44 a.m.:

Appointments:

Washington's Farewell Address.

With best wishes, I am

Sincerely,

KAREN L. HAAS.

THE BUDGET MESSAGE OF THE PRESIDENT—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES (H. DOC. NO. 114-86)

The SPEAKER pro tempore laid before the House the following message from the President of the United States; which was read and, together with the accompanying papers, referred to the Committee on Appropriations and ordered to be printed:

To the Congress of the United States:

As I look back on the past seven years, I am inspired by America's progress—and I am more determined than ever to keep our country moving forward. When I took office, our Nation was in the midst of the worst recession since the Great Depression. The economy was shedding 800,000 jobs a month. The auto industry was on the brink of collapse and our manufacturing sector was in decline. Many families were struggling to pay their bills and make ends meet. Millions more saw their savings evaporate, even as retirement neared.

But thanks to the grit and determination of the American people, we rescued our economy from the depths of the recession, revitalized our auto industry, and laid down new rules to safeguard our economy from recklessness on Wall Street. We made the largest investment in clean energy in our history, and made health care reform a reality. And today, our economy is the strongest, most durable on Earth.

Our businesses have created more than 14 million jobs over 70 months, the longest streak of job growth on record. We have cut our unemployment rate in half. Our manufacturing sector has added nearly 900,000 jobs in the last six years—and our auto industry just had its best year of sales ever. We are less reliant on foreign oil than at any point in the previous four decades. Nearly 18 million people have gained health coverage under the Affordable Care Act (ACA), cutting the uninsured rate to a record low. Our children are graduating from high school at the highest rate ever. And we managed to accomplish all of this while dramatically cutting our deficits by almost three-quarters and setting our Nation on a more sustainable fiscal path. Together, we have brought America back.

Yet while it is important to take stock of our progress, this Budget is not about looking back at the road we have traveled. It is about looking forward. It is about making sure our economy works for everybody, not just those at the top. It is about choosing investments that not only make us stronger today, but also reflect the kind of country we aspire to be—the

kind of country we want to pass on to our children and grandchildren. It is about answering the big questions that will define America and the world in the 21st Century.

My Budget makes critical investments while adhering to the bipartisan budget agreement I signed into law last fall, and it lifts sequestration in future years so that we continue to invest in our economic future and our national security. It also drives down deficits and maintains our fiscal progress through smart savings from health care, immigration, and tax reforms. And, it focuses on meeting our greatest challenges not only for the year ahead, but for decades to come.

First, by accelerating the pace of American innovation, we can create jobs and build the economy of the future while tackling our greatest challenges, including addressing climate change and finding new treatments—and cures—for devastating diseases.

The challenge of climate change will define the contours of this century more dramatically than any other. Last year was the hottest on record, surpassing the record set just a year before. Climate change is already causing damage, including longer, more severe droughts and dangerous floods, disruptions to our food and water supply, and threats to our health, our economy, and our security.

We have made great strides to foster a robust clean energy industry and move our economy away from energy sources that fuel climate change. In communities across the Nation, wind power is now cheaper than dirtier, conventional power, and solar power is saving Americans tens of millions of dollars a year on their energy bills. The solar industry employs more workers than the coal industry—in jobs that pay better than average.

Despite these advances, we can and must do more. Rather than shrinking from the challenge, America must foster the spirit of innovation to create jobs, build a climate-smart economy of the future, and protect the only planet we have. To speed our transition to an affordable, reliable, clean energy system, my Budget funds Mission Innovation, our landmark commitment to double clean energy research and development funding. It also calls for a 21st Century Clean Transportation initiative that would help to put hundreds of thousands of Americans to work modernizing our infrastructure to ease congestion and make it easier for businesses to bring goods to market through new technologies such as autonomous vehicles and high-speed rail, funded through a fee paid by oil companies. It proposes to modernize our business tax system to promote innovation and job creation. It invests in strategies to make our communities more resilient to floods, wildfires, and other effects of climate change. And, it protects and modernizes our water supply and preserves our natural landscapes. These investments, coupled with those
